# Introduction

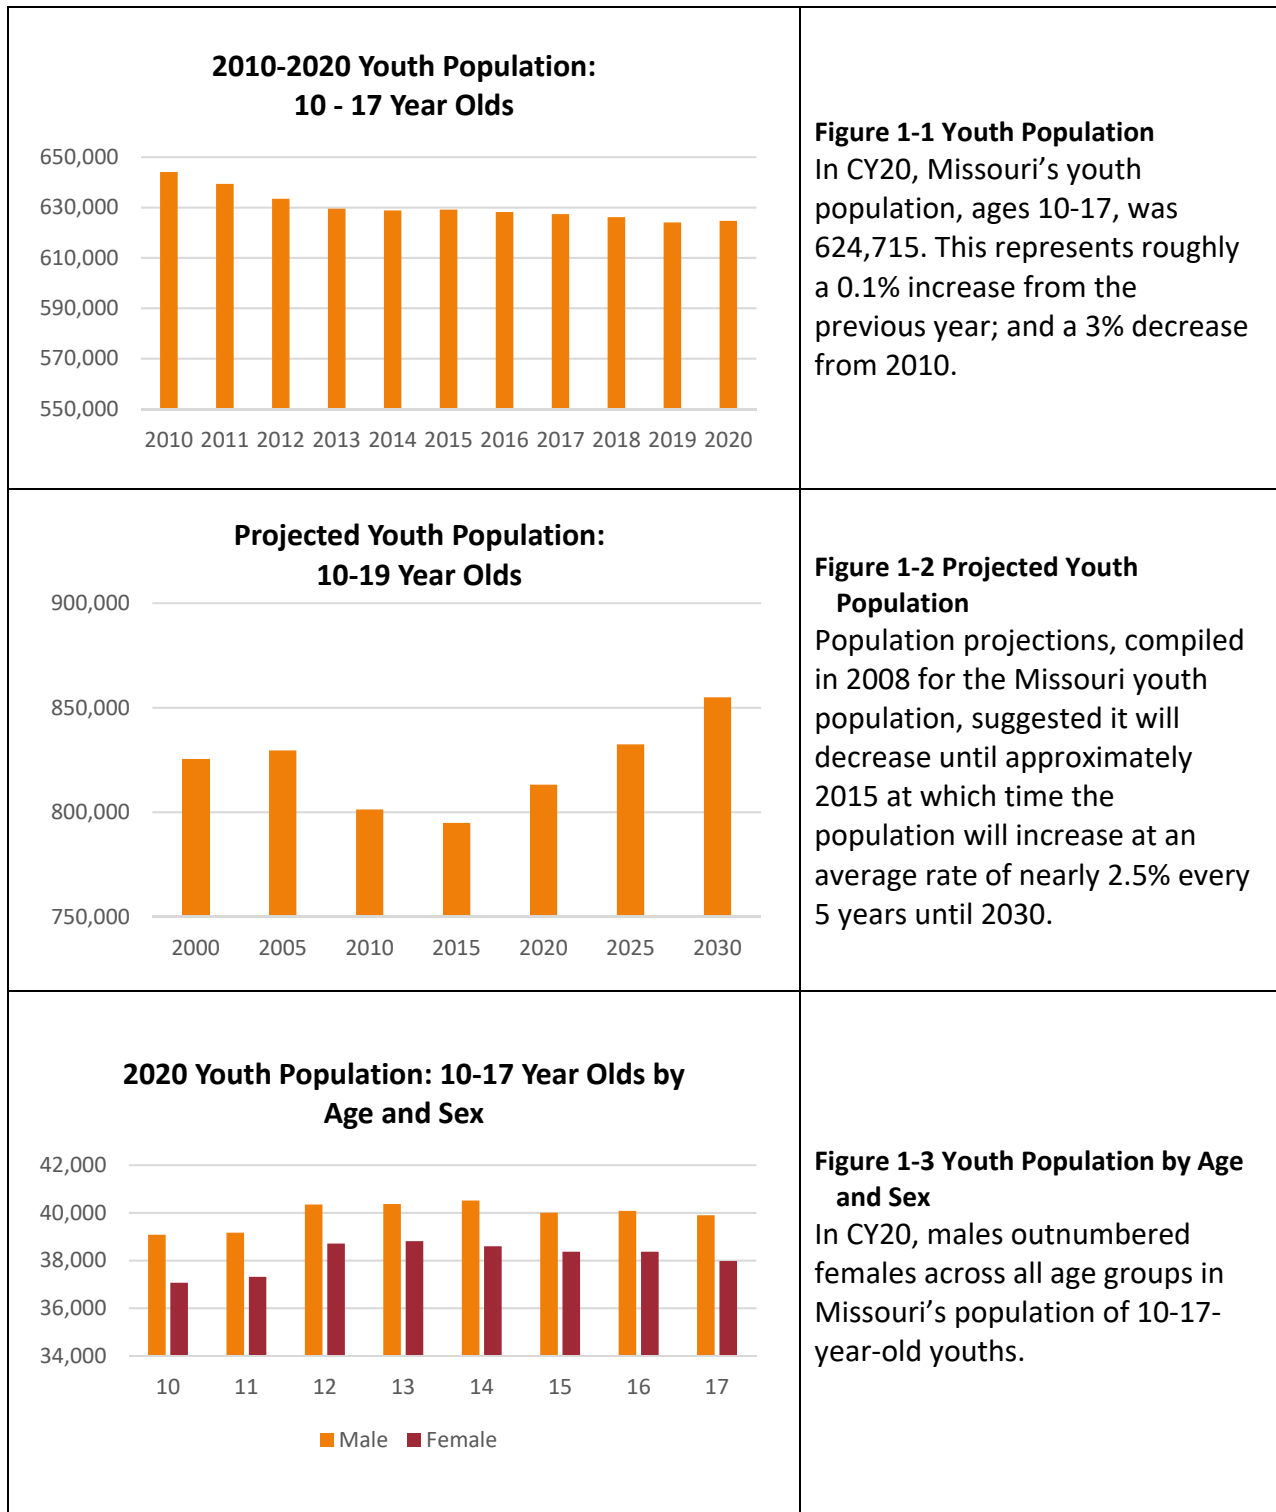

The *Missouri Juvenile and Family Division Annual Report* provides a comprehensive account of both case activity and youth served for calendar year 2021. This report presents general population data for Missouri youth; summary statistics on the youth referred for status, law, and abuse and neglect to Missouri's juvenile division; the risk and needs characteristics of the juvenile offender population; detention and DYS populations; recidivism rates; certifications of juveniles to adult court; disproportionate minority contact rates; Juvenile Officer Weighted Workload; time standards for child abuse and neglect cases; Juvenile Officer Performance Standards information; and juvenile and family division programs with participation rates.

The *Missouri Juvenile and Family Division Annual Report* is not possible without the help of Missouri's juvenile and family court staff. It is their commitment to improving outcomes for court involved youth and their families that ensures the integrity of the information reported here.

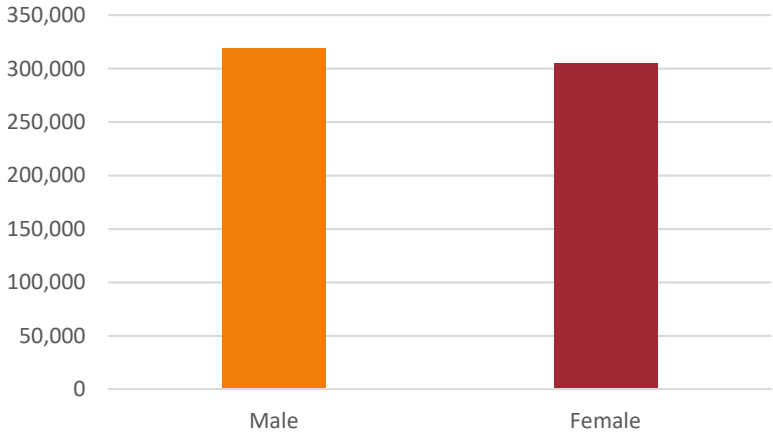

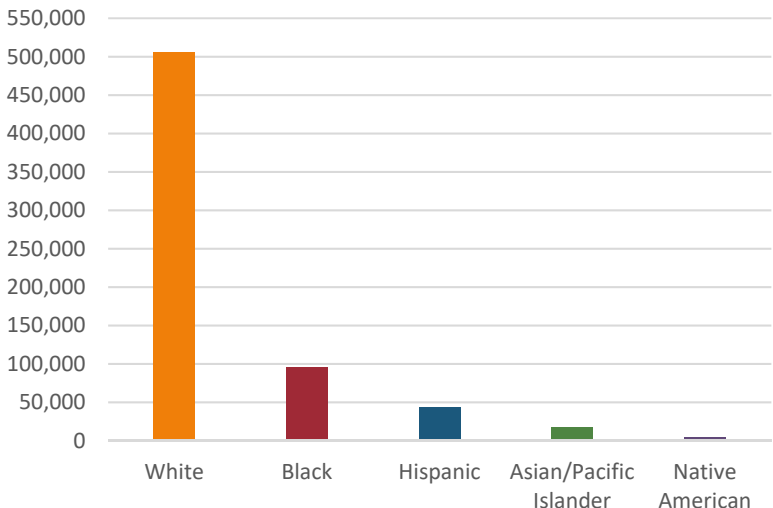

## Section 1: Missouri's Youth Population

Section 1 describes the 2020 population of Missouri's youth (ages 10-17). This description provides a useful context for considering subsequent sections of the report related to a subset of youth involved with juvenile and family court divisions in Missouri [Source: Missouri Census Data Center].

<p><b>Figure 1-4 Youth Population by Sex</b></p> <p>In CY20, 51% [319,472] of Missouri's youth population was male and 49% [305,243] was female. These percentages have remained the same since 1990.</p>	<p><b>2020 Youth Population: 10-17 Year Olds by Sex</b></p>  <table border="1"><thead><tr><th>Sex</th><th>Population</th></tr></thead><tbody><tr><td>Male</td><td>319,472</td></tr><tr><td>Female</td><td>305,243</td></tr></tbody></table>	Sex	Population	Male	319,472	Female	305,243						
Sex	Population												
Male	319,472												
Female	305,243												
<p><b>Figure 1-5 Youth Population by Race</b></p> <p>Between CY19 and CY20, the Missouri population of Hispanic youth increased the most by 15% to 43,352. Asian/Pacific Islander youth population also had a significant increase of 13% to 17,432. The Black youth population had an increase but only by 1% to 95,534. While the White [506,127] and Native American [4,868] youth populations noticed a decrease of 1%.</p>	<p><b>2020 Youth Population: 10-17 Year Olds by Race</b></p>  <table border="1"><thead><tr><th>Race</th><th>Population</th></tr></thead><tbody><tr><td>White</td><td>506,127</td></tr><tr><td>Black</td><td>95,534</td></tr><tr><td>Hispanic</td><td>43,352</td></tr><tr><td>Asian/Pacific Islander</td><td>17,432</td></tr><tr><td>Native American</td><td>4,868</td></tr></tbody></table>	Race	Population	White	506,127	Black	95,534	Hispanic	43,352	Asian/Pacific Islander	17,432	Native American	4,868

Black	95,534												
Hispanic	43,352												
Asian/Pacific Islander	17,432												
Native American	4,868												

## Section 2: Juvenile & Family Division Referrals

---

The Missouri Juvenile Officer Performance Standards (2017) define a juvenile and family division referral as *“the initial information provided to the juvenile officer from the referring agency inclusive of the identifying information and basis for the jurisdiction of the juvenile court.”* For the purpose of annual reporting, unless otherwise indicated, disposed referrals represent the unit of measurement, not individual youth. A disposition refers to the outcome or finding of a referral [see pages 13-14] for details about how these dispositions and outcomes are reported in Missouri’s Judicial Information System (JIS)].

The juvenile and family division is responsible for processing and supervising four referral types:

- **Status Offenses:** Status offense referrals include Behavior Injurious to Self/Others, Habitually Absent from Home, Truancy, Beyond Parental Control, and Status-Other. **Note:** The following offenses are also counted as Status Offenses: Juvenile Municipal Ordinance violations, which are those municipal ordinance violations that are explicitly labeled with “JUVMUNI” in the charge code (<https://www.courts.mo.gov/file.jsp?id=2018> ).
- **Law Offenses:** Law offense referrals include all criminal violations listed in the Missouri Charge Code Manual, including infraction and ordinance violations, except Juvenile Municipal Ordinance violations.
- **Child Abuse and Neglect (CA/N):** CA/N referrals are allegations of child abuse or neglect where the child is the victim or custody related matters are an issue. Abuse referrals include Abuse-Emotional, Abuse-Incest, Abuse-Other Sexual, and Physical Abuse. Neglect referrals include Abandonment, Neglect-Education, Neglect-Improper Care/Supervision, Neglect-Medical Care, Neglect-Surgical Care, and Neglect-Other. Custody referrals include Abduction, Protective Custody, Transfer of Custody, Termination of Parental Rights, and Relief of Custody.
- **Administrative:** Administrative referrals include Violation of Valid Court Order, Juvenile Informal Supervision/Technical Violation, and Juvenile Formal Supervision/Technical Violation.<sup>1</sup>

Section 2 presents information on disposed referrals at the state level for the juvenile and family division in calendar 2021.

---

<sup>1</sup> Counts of Administrative referrals throughout this report include these additional violations: Prob / Parole Violation and Probation Violation (Municipal Ordinance). While not sanctioned for use on juvenile referrals, circuits have used these charge codes in calendar year 2021.

## Section 2: Juvenile & Family Division Referrals

**Table 2-1 Source of Referrals**

Referrals to Missouri's juvenile and family division originate from a variety of sources. In CY21, 47% of all referrals originated from some type of law enforcement agency (Municipal Police, County Sheriff, Highway Patrol, and Other Law Enforcement), primarily municipal police [37%]. The Children's Division of Missouri's Department of Social Services accounted for 23% of all referrals. An additional 18% of referrals occurred at schools (School Personnel and Resource Officer).  
Missing Data [743]

Source of Referral	Frequency	Percentage
Municipal Police	13,698	37.1%
Children's Division	8,647	23.4%
School Personnel	4,625	12.5%
County Sheriff	3,152	8.5%
School Resource Officer	1,989	5.4%
Parent	1,398	3.8%
Juv Court Personnel	1,357	3.7%
Other	692	1.9%
Other Juv Court	426	1.2%
Other Law Enforcement	323	0.9%
Private Social Agency	302	0.8%
Highway Patrol	183	0.5%
Other Relative	95	0.3%
Victim or Self	31	0.1%
Public Social Agency	15	0.0%
DMH	14	0.0%
<b>Grand Total</b>	<b>36,947</b>	<b>100.00 %</b>

**Figure 2-1 Referrals by Referral Type**

In CY21, a total of 37,690 referrals were disposed. The largest percentage [36%, 13,734] was for abuse/neglect allegations. The rest of the referrals were divided between delinquency [33%, 12,528], status offenses [29%, 10,790], and administrative offenses [2%, 638].  
Missing Data [0]

**Note:** Juvenile Municipal Ordinance violations are included with status referrals.

**Total Referrals by Sex****Figure 2-2 Referrals by Sex**

For all the disposed referrals in CY21, males were responsible for 59% [22,193] and females for the remaining 41% [15,416].  
Missing Data [81]

**Total Referrals by Race****Figure 2-3 Referrals by Race**

Approximately, 71% [26,212] of all disposed referrals were for white youth. The second largest percentage of referrals was 25% [9,354] for black youth. The remaining groups are Hispanic youth which accounted for 2.9% [1,097], Asian/Pacific Islander youth which accounted for 0.5% [182], and Native American youth which accounted for 0.2% [74].  
Missing Data [771]

**Note:** Missing Data includes the Unknown race option

**Total Referrals by Age**

Age	Frequency	Percentage
< 10	8,941	23.7%
10	1,078	2.9%
11	1,415	3.8%
12	2,320	6.2%
13	3,892	10.3%
14	5,102	13.5%
15	5,641	15.0%
16	6,092	16.2%
17	2,813	7.5%
> = 18	368	1.0%
<b>Grand Total</b>	<b>37,662</b>	<b>100.0 %</b>

**Table 2-2 Referrals by Age**

The youngest age group, under 10 years, was responsible for 23.7% [8,941] of all referrals. Youth aged 16, were responsible for the next largest proportion of referrals, [16.2%, 6,092], followed by youth aged 15, [15.0%, 5,641] and youth aged 14 [13.5%, 5,102].  
Missing Data [28]

## Section 2: Juvenile & Family Division Referrals

**Figure 2-4 Youth Referral Trend**

The total number of disposed referrals declined by 35% from 2011 to 2021. The trend shows the greatest decrease in delinquency referrals (-59%). All other referral types decreased: status referrals (-35%), CA/N referrals (-18%), and administrative referrals (-37%) over that period. Since last year, there was a decrease in administrative referral types (-25%). There was an increase in all other case types: delinquency (16%), CA/N (9%), and status (7%).

**Youth Referrals by Referral Type: 2011-2021**

**Figure 2-5 Youth Referrals by Sex**

Disposed referrals declined more for males (-39%) than for females (-31%) from 2011 to 2021. Between 2020 and 2021, the number of referrals for males and females increased by 9.8%.

**Youth Referrals by Sex: 2011 - 2021**

**Figure 2-6 Youth Referrals by Race**

From 2011-2021, disposed referrals declined for black youth (-40.4%), white youth (-36.0%), Asian/Pacific Islander youth (-25.7%), Native American youth (-28.8%) and Hispanic youth (-5.0%)

**Note:** Asian/Pacific Islander and Native American youth are not displayed to maintain readability.

**Youth Referrals by Race: 2011-2021**

The juvenile and family division will respond to referrals either through a formal or informal process. Through the formal process, a juvenile officer files a petition in the juvenile and family division to have a judge hear and determine the outcome of the allegations contained in the petition. Through the informal process, a juvenile officer determines the outcome of the allegations contained in the referral without filing a petition seeking formal judicial jurisdiction. The following referral outcomes are recorded on the ***Site Defined (COASITE)*** form when a VDYSO docket code is entered on the ***Custom Docket Entry and Maintenance (CDADOCT)*** form in Judicial Information System (JIS).

***Formal Outcomes:***

**Allegation True, Youth Receives Out-of-Home Placement** – A judicial action finding the allegation true. Youth is placed out-of-home with the Division of Youth Services (DYS), in foster care, with a relative, or with a private or public agency.

**Allegation True, Youth Receives In-Home Services** – A judicial action finding the allegation true. Youth receives services while remaining in his or her home. This outcome requires the youth to receive supervision through the juvenile division.

**Allegation True, No Services** – A judicial action finding the allegation true; however, the youth receives no services or supervision.

**Allegation Not True** – A judicial action which results in the termination of a juvenile case during the initial juvenile division hearing because the allegation is found not true.

**Sustain Motion to Dismiss** – A judicial action which results in a motion to dismiss the petition before the initial division hearing.

**Juvenile Certified – Felony Allegation** - A judicial action sustaining a motion to dismiss a petition to the juvenile division and allow prosecution of youth under the general law.

***Informal Outcomes:***

**Informal Adjustment without Supervision:** Any informal non-judicial activity that occurs without the filing of a petition and involves supervision of youth by written agreement and complies with Missouri Supreme Court Rules for an informal adjustment conference. Although services may be monitored, this disposition does not include direct supervision of a youth in accordance with the Missouri Juvenile Officer Performance Standards. However, because the disposition is applied on the basis of an informal adjustment conference, completion of the mandated risk and needs assessments is required when the referral is for a status or delinquency allegation.

**Informal Adjustment with Supervision:** Any informal non-judicial activity that occurs without the filing of a petition and involves supervision of youth by written agreement and complies with Missouri Supreme Court Rules for an informal adjustment conference and the relevant contact standards contained in the Missouri Juvenile Officer Performance Standards. This disposition requires completion of the risk and needs assessment when the referral is for a status or delinquency allegation.

**Informal Adjustment – No Action:** Any informal non-judicial activity that entails no more than brief face-to-face, telephone, or warning letter with the intent to inform, counsel, and warn the youth and/or family regarding a referral received. No official informal adjustment conference, per Supreme Court Rule is held; therefore completion of the mandated risk or needs assessments is not required when the referral is for a status or delinquency allegation.

**Transfer to Other Juvenile Division:** A non-judicial activity where a youth's case file and associated records are transferred to another juvenile division for disposition. Depending on when this disposition is applied, an official informal adjustment conference and associated assessments may or may not occur.

**Transfer to Other Agency:** A non-judicial activity where a youth's case file and associated records are transferred to another agency (CD, DMH, DYS, or other public or private agency) for disposition. Depending on when this disposition is applied, an official informal adjustment conference and associated assessments may or may not occur.

**Referral Rejected:** The referral is rejected because there is insufficient information for administrative action to proceed or the referral is found not true. No informal adjustment conference is conducted and no assessments are required.

**Youth Referrals by Action Taken****Figure 2-7 Youth Referrals by Action Taken**

In CY21, 71% [26,712] of all referrals were disposed through the informal process. Only 27% [10,156] of referrals required formal court intervention. Remaining cases are missing disposition information. Missing Data [822]

**Total Referrals by Outcome****Figure 2-8 Youth Referrals by Outcome**

Informal Adjustment – No Action [17.5%, 6,598] was the most frequently used informal finding, and the most frequently used formal finding was Allegation Found True with Out-of-Home Placement [18.4%, 6,934]. Missing Data [822]

## Section 3: Law Violation Referrals

Section 3 describes law violation referrals disposed by Missouri's juvenile and family division. Law violation referrals made up 33% of all referrals disposed in calendar 2021. A law violation referral is counted as a single delinquent act represented by the most serious allegation charged (misdemeanor or higher). However, multiple delinquent acts may be associated with a single referral. **Note:** Infractions and municipal ordinances are included under law violations. Juvenile municipal ordinances are listed under status offenses.

**Table 3-1 Source of Law Violation Referrals**

The source of 84% of law violation referrals was some form of law enforcement agency (Municipal Police, County Sheriff, Highway Patrol, and Other Law Enforcement), primarily municipal police [68.3%] and county sheriff departments [13.8%]. Schools were the second highest referring agency [12%] (School Personnel and Resource Officer combined).  
Missing Data [146]

Source of Referral	Frequency	Percentage
Municipal Police	8,463	68.3%
County Sheriff	1,706	13.8%
School Resource Officer	1,190	9.6%
School Personnel	297	2.4%
Other Law Enforcement	163	1.3%
Other Juv Court	144	1.2%
CD	130	1.0%
Highway Patrol	130	1.0%
Juv Court Personnel	82	0.7%
Parent	30	0.2%
Other	25	0.2%
Victim or Self	10	0.1%
DMH	6	0.0%
Other Relative	5	0.0%
Private Social Agency	1	0.0%
<b>Grand Total</b>	<b>12,382</b>	<b>100.00 %</b>

**Figure 3-1 Law Violation Referrals by Charge Level**

The most common charge level for law referrals was misdemeanor [62.4%] with Class A misdemeanors accounting the largest amount [33.8%, 4,229]. Felonies represented 33.3% of law referrals, with Class D being the most common type of felony referral [14.8%, 1,857]. Roughly six percent of all law violations were for Class A and B felonies [306 & 396].  
Missing Data [0]

**Law Violation Referrals by Charge Level**

**Law Violations by Charge Level and Sex****Figure 3-2 Law Violation Referrals by Charge Level and Sex**

Law violations at the misdemeanor level were the most common allegation for both male and female offenders. However, within sex, the percentage of referrals for misdemeanors was higher for females [72%, 2,564] than for males [59%, 5,243]. Conversely, males were referred at a higher rate [37%, 3,335] for felonies than were females [23%, 824].

Missing Data [26]

**Law Violations by Charge Level and Race****Figure 3-3 Law Violation Referrals by Charge Level and Race**

Misdemeanor was the most common charge among all race categories. However, within race, the percentage of felony referrals was higher for youth of color than white youth: Black youth [41%, 1,721], Hispanic youth [38%, 117], Asian/Pacific Islander youth [32%, 16], Native American youth [31%, 4], White youth [29%, 2,251].

Missing Data [151]

**Note:** Missing Data includes the Unknown race option

**Law Violations by Charge Level and Age****Figure 3-4 Law Violation Referrals by Charge Level and Age**

Youth aged 15 and 16 years old were responsible for the largest number of misdemeanors and the largest number of felonies. Youth under age 10 were proportionally the most likely to commit misdemeanors (68% of their violations), while youth aged 18 and older were proportionally the most likely to commit felonies (67% of their violations).

Missing Data [12]

**Table 3-2 Top Law Violation Referrals**

Violations for Assault, Property Damage, Stealing, Dangerous Drugs, and Peace Disturbance accounted for the majority [69%] of major allegations on law referrals. The Top 5 Law Violations remain unchanged from the previous year.

Missing Data [0]

According to *Juvenile Court Statistics 2019* report published by the National Center for Juvenile Justice, assault was also the most common offense for juveniles in the United States. Following assault, the next highest number of cases handled by juvenile courts nationwide were larceny-theft and then followed by obstruction of justice.

**Note:** Juvenile municipal ordinances are listed under status offenses.

Top Law Violations CY21	Frequency	Percentage
Assault	3,555	28.4%
Property Damage	1,765	14.1%
Stealing	1,342	10.7%
Dangerous Drugs	1,166	9.3%
Peace Disturbance	864	6.9%
Sexual Assault	625	5.0%
Invasion of Privacy	434	3.5%
Burglary	353	2.8%
Liquor Laws	281	2.2%
Weapons	275	2.2%

<b>Grand Total</b>	<b>12,528</b>	<b>100.00 %</b>

**Table 3-3 Law Violation Referrals by Major Allegation and Age Group**

Forty four percent of all juvenile law violation referrals were committed by youth aged 15 and 16. These youth were responsible for 53% of homicides, 54% of drug charges, 53% of liquor law violations, 52% of robberies, and 48% of stealing referrals. Only threats, forgery and municipal charges were committed at a higher rate by youth 13-14. Missing Data [12] **Note:** Juvenile municipal ordinances are listed under status offenses.

Major Allegation	Age Range										Total
	<10	10	11	12	13	14	15	16	17	>=18	
Assault	65	57	114	298	472	691	698	762	359	39	3,555

**Figure 3-5 Law Violation Referrals by Action Taken**  
Eighty-two percent [10,217] of law violation referrals were disposed through the informal court process. Seventeen percent [2,123] required formal court intervention. Remaining cases are missing outcome information.  
Missing Data [188]

**Figure 3-6 Law Violation Referrals by Outcome**  
The most frequently used methods of disposing law violation referrals were Referral Rejected [24.1%, 3,017] and Informal Adj No Action [16.7%, 2,091]. Allegation Found True with In-Home Services was the most frequently applied formal outcome [9.2%, 1,150], followed by Allegation Found True-Out-of-Home Placement [4.3%, 543]. Less than 1% [35] of referrals resulted in petitions for Certification to Adult Court.  
Missing Data [188]

## Section 4: Status Offense Referrals

Section 4 describes status offense referrals disposed by the juvenile and family division. Status offense referrals made up 29% of all referrals in calendar 2021. A status violation referral is counted as a single behavioral act represented by the most serious allegation charged. However, multiple status offense acts may be associated with a single referral. **Note:** Juvenile Municipal Ordinances are included in Status Offenses.

Source of Referral	Frequency	Percentage
Municipal Police	4,081	38.0%
School Personnel	3,151	29.3%
County Sheriff	1,085	10.1%
Parent	808	7.5%
School Resource Officer	571	5.3%
CD	438	4.1%
Juv Court Personnel	322	3.0%
Other Juv Court	63	0.6%
Other Law Enforcement	58	0.5%
Other Relative	52	0.5%
Other	38	0.4%
Highway Patrol	34	0.3%
Private Social Agency	28	0.3%
Victim or Self	11	0.1%
Public Social Agency	5	0.0%
DMH	2	0.0%
<b>Grand Total</b>	<b>10,747</b>	<b>100.0 %</b>

**Table 4-1 Source of Status Offense Referrals**

Forty nine percent of status violation referrals originated from some form of law enforcement agency (Municipal Police, County Sheriff, Highway Patrol, and Other Law Enforcement), primarily municipal police [38%] and county sheriff departments [10%]. Schools [35%] were the second highest referring agency (School Personnel and Resource Officer combined), followed by parents [8%] and Children's Division [4%]. Missing Data [43]

**Status Offense Referrals by Allegation**

**Figure 4-1 Status Offense Referrals by Allegation**

Behavior Injurious to Self or Others [34%, 3,709] was the most frequent status offense for which youth were referred, followed closely by Truancy [23%, 2,525]. Muni-Curfew constitutes 3% of status offense referrals, while the remaining Juvenile Municipal Ordinance charges combined account for less than 1% of all status offense referrals. Missing data [0].

**Figure 4-2 Status Offense Referrals by Allegation and Sex**

Behavior Injurious to Self/Others was the most common allegation for both males [37%, 2,279] and females [31%, 1,425]. Proportionally, Females were more likely than males to be referred for Truancy and Habitually Absent from Home. Also, the number of Females [24%, 1,119] referred for Habitually Absent from Home was greater than males [17%, 1,046]. Males were more likely to be referred for all other offenses. Missing Data [18]

**Note:** Due to space constraints, the only Municipal Ordinance charge included is Muni-Curfew.

**Status Offenses by Allegation and Sex**

**Figure 4-3 Status Offense Referrals by Allegation and Race**

Behavior Injurious to Self/Others was the most common reason to be referred for White youth [36%, 2,921] and Native American youth [39%, 11]. Black youth were most frequently referred for Habitually Absent from Home [36%, 769]. Hispanic [32%, 102] and Asian/Pacific Islander [38%, 26] youth were most referred for Truancy. Missing Data [118]

**Note:** Due to space constraints, the only Municipal Ordinance charge included is Muni-Curfew.

**Note:** Missing Data includes the Unknown race option

**Status Offense Referrals by Allegation and Race**

**Table 4-2 Status Offense Referrals by Allegation and Age**

Behavior Injurious to Self/Others was the most common type of referral for youth of all ages. Youth aged 15-16 was the group most often referred for Truancy [26%, 1,135]. The youth older than 17 were proportionally more likely to be referred for being Habitually Absent from Home [30%, 236]. Also, youth younger than the age of 12 were proportionally more likely to be referred for being Beyond Parental Control [17%, 334].

Missing Data [2]

	Age Range									
	< 10	10	11	12	13	14	15	16	17	>=18
Behavior Injurious To Self/Others	236	131	170	319	560	710	677	619	260	26
Truancy	85	47	93	183	404	466	530	605	104	8
Habitually Absent From Home	25	27	68	123	222	428	509	528	225	11
Beyond Parental Control	52	52	76	154	268	301	298	277	66	4

Muni - Curfew	1	1	2	11	30	81	103	99	30	1
Muni- Possession/Use Of A Tobacco Product	0	1	2	2	2	9	8	5	4	1
Muni - Other Violation	0	1	0	2	0	1	2	1	1	0
Muni - Possession/Discharge Arms	0	1	0	0	0	0	1	0	0	0
Muni - Pedestrian Violation	0	0	0	0	0	0	0	0	1	0
<b>Grand Total</b>	<b>425</b>	<b>267</b>	<b>432</b>	<b>825</b>	<b>1,542</b>	<b>2,068</b>	<b>2,204</b>	<b>2,226</b>	<b>743</b>	<b>56</b>

**Figure 4-4 Status Offense Referrals by Action Taken**

The vast majority of status offense referrals [91%, 9,823] were disposed through the informal process, leaving only 8% [896] to be disposed through the formal court process. Remaining cases are missing outcome information.  
Missing Data [71]

**Status Offense Referrals by Action Taken**

**Figure 4-5 Status Offense Referrals by Outcome**

Informal Adjustment, No Action [29%, 3,079] was the most frequently used method for disposing status referrals, followed by Informal Adjustment without Supervision [21%, 2,310]. Allegation True with In-Home Services was the most frequently applied formal outcome [4%, 459].  
Missing Data [71]

**Status Offense Referrals by Outcome**

\* Formal Outcomes

## Section 5: Child Abuse and Neglect Referrals

Section 5 describes child abuse and neglect (CA/N) referrals disposed by Missouri's juvenile and family division. CA/N referrals made up 36% of all referrals in calendar 2021. A CA/N referral is counted as a single event, represented by the most serious allegation where a youth is the victim. However, a youth may be the victim of multiple incidences of abuse and/or neglect at the time at which they are referred.

Source of Referral	Frequency	Percent
CD	8,051	60.9%
School Personnel	1,149	8.7%
Municipal Police	1,007	7.6%
Other	629	4.8%
Juv Court Personnel	617	4.7%
Parent	553	4.2%
County Sheriff	355	2.7%
Private Social Agency	244	1.8%
School Resource Officer	225	1.7%
Other Juv Court	212	1.6%
Other Law Enforcement	102	0.8%
Other Relative	36	0.3%
Highway Patrol	17	0.1%
Public Social Agency	10	0.1%
Victim or Self	7	0.1%
DMH	6	0.0%
<b>Total</b>	<b>13,220</b>	<b>100 %</b>

**Table 5-1 Source of CA/N Referrals**

Roughly 60% of all CA/N referrals are from Children's Division (CD) of Missouri's Department of Social Services (DSS). Law enforcement agencies (Municipal Police, County Sheriff, Highway Patrol, and Other Law Enforcement) were responsible for 11% of the referrals. Approximately 10% of the referrals originated from schools (School Personnel and Resource Officer combined).

Missing Data [514]

**Child Abuse & Neglect Referrals by Allegation Type**

**Figure 5-1 CA/N Referrals by Allegation Type**

Neglect-Improper Care/Supervision represented [43%, 5,966] most of all CA/N referrals, followed by Neglect-Other [18%, 2,414]. Abuse-Physical [8%, 1,060] was the fourth highest allegation type.

Missing Data [0]

## Section 5: Child Abuse and Neglect Referrals

**Figure 5-2 CA/N Referrals by Allegation and Sex**

Within sex, the percentage of neglect related referrals were higher for males [74%, 4,997] than for females [71%, 4,941]. Conversely, referrals for abuse were greater for females [18%, 1,282] compared with their male counterparts [12%, 831]. Missing Data [37]

**Child Abuse and Neglect Referrals by Charge Level and Sex**

**Table 5-2 CA/N Referrals by Allegation and Race**

Neglect was the most common type of referral for all youth [73%, 9,581]. Proportionately, Asian/Pacific Islander youth were the most likely group to be referred for abuse [20%, 10]. Missing Data [498]

**Note:** Missing Data includes the Unknown race option

Race/Ethnicity	Juvenile Abuse	Juvenile Custody	Juvenile Neglect	Total
White	1,460	1,254	7,261	9,975
Black	511	326	1,899	2,736
Hispanic	59	31	352	442
Native American	0	3	29	32
Asian/Pacific Islander	10	1	40	51
<b>Grand Total</b>	<b>2,040</b>	<b>1,615</b>	<b>9,581</b>	<b>13,236</b>

**Table 5-3 CA/N Referrals by Allegation and Age**

The vast majority of abuse, neglect, and custody referrals were for youth 10 years of age and younger [61%, 8,337]. Proportionately, youth age 14 [27%, 218] were the most likely to be referred for abuse amongst the age groups. Missing Data [14]

Age	Juvenile Abuse	Juvenile Custody	Juvenile Neglect	Total
< 10	966	1,147	6,224	8,337
10	95	62	505	662
11	95	50	513	658
12	143	63	490	696
13	195	67	562	824
14	218	74	509	801
15	168	78	505	751
16	149	75	426	650
17	75	28	219	322
> = 18	8	3	8	19
<b>Grand Total</b>	<b>2,112</b>	<b>1,647</b>	<b>9,961</b>	<b>13,720</b>

**Action Taken for Child Abuse & Neglect Referrals****Figure 5-3 CA/N Referrals by Action Taken**

Fifty percent of CA/N referrals were disposed through the formal court process [6,923]. Forty six percent [6,288] of referrals were handled through the informal court process. The remainder were missing data.

Missing Data [523]

**Child Abuse and Neglect Referrals by Outcome****Figure 5-4 CA/N Referrals by Outcome**

Allegation True, Out-of-Home Placement was the most frequently applied outcome [44%, 5,977] to CA/N referrals, followed by Referral Rejected [15%, 2,023] and Informal Adjustment, No Action [10%, 1,418].

Missing Data [523]

## Section 6: Assessment & Classification

---

In 1995, the Missouri General Assembly passed the Juvenile Crime and Crime Prevention Bill [HB 174]. The bill was aimed at reshaping Missouri's juvenile justice system through the development of a comprehensive juvenile justice strategy. As part of the strategy, the Office of State Courts Administrator was charged with coordinating an effort to design and implement a standardized assessment process for classifying juvenile offenders. The result of this effort was the Missouri Juvenile Offender Classification System.

The Missouri Juvenile Offender Classification System includes an empirically validated risk assessment for estimating a youthful offender's relative likelihood of future delinquency and a classification matrix that links the level of risk and offense severity to a recommended set of graduated sanctions. The system also includes a needs assessment for identifying the underlying psychosocial needs of youth.

Since its inception, the Missouri Juvenile Offender Classification system has helped Missouri's juvenile justice professionals to ensure public safety and promote statewide consistency in the services and supervision of youthful offenders.

The Missouri Juvenile Officer Performance Standards (2017) sections 2.6 Risk Assessment and 2.7 Needs Assessment mandates the juvenile officer complete a Missouri Juvenile Officer Risk Assessment and Missouri Juvenile Officer Needs Assessment on "all juveniles with a legally sufficient referral for a delinquent or status offense if an informal adjustment conference was conducted, or the matter was subject to adjudication." Subsequent risk assessments are to be completed "if the juvenile receiving services is subject to a new delinquent or status offense referral, and additional sanctions or services will be required." Subsequent needs assessments are to be completed "upon significant changes in the juvenile's circumstances or every 90 days as an indicator of progress toward the supervision or treatment goals."

Section 6 presents information on juveniles with referrals who were disposed during calendar 2021, and who had risk and needs assessments entered on the ***Custom Assessment Maintenance (CZAASMT)*** form of JIS. When a referral has more than one associated risk/needs assessment(s), the highest score is reported. When a referral is not associated with any risk/needs assessment(s) in the reporting year, the score associated with the risk/needs assessment that was completed on the nearest date before or after the initial filing date of the referral is the one that is reported, regardless of the year the assessment was completed. Figures 6-1 to 6-3 provide risk level information with Tables 6-1 and 6-2 providing information about the prevalence of individual risk and need factors. \*\*

*\*\*Readers should refer to [Missouri's Juvenile Offender Risk & Needs Assessment and Classification System Manual \(2005\)](#) for the operational definitions of risk and needs factors.*

Strong negative or criminal influence	150	1.7

## Section 7: Detention Services

---

Missouri's juvenile and family division of the circuit court includes 18 detention facilities to house youth in need of secure detention. Juvenile justice personnel identify offenders most in need of secure detention using the objective criteria contained in Missouri's Juvenile Detention Assessment (JDTA). In addition, 17 detention centers participate in the Annie Casey Foundation Juvenile Detention Alternatives Initiative (JDAI) [highlighted in table 7-1] for calendar 2021. [The 32<sup>nd</sup> circuit also participates in JDAI, but does not have detention centers.] JDAI is an effort to assist the juvenile and family division with the development and use of community-based alternatives to secure detention when detention is determined to be unnecessary or inappropriate. The initiative emphasizes the collection and application of objective data to identify practices that may contribute to over-utilization of secure detention, detention overcrowding, and disproportionate minority confinement. On February 18, 2014 the Supreme Court of Missouri adopted the "Standards for Operation of a Secure Juvenile Detention Facility" which then became effective on January 1, 2015 that guides detention policy and practices.

Section 7 presents admission, discharge, population, and length of stay information entered on the ***Custom Room Facility Assignment (CZAROOM)*** form of JIS for Missouri's secure detention facilities. Depending on the reporting objective, counts are based on admissions or discharges; a single youth may be counted multiple times if they were detained on more than one occasion.

Please note that as of August 2021, youth that are certified shall be held in detention facilities. Since that data was not collected for the full year, the data for those youth has been excluded from the following counts.

## Section 7: Detention Services

**Table 7-1 Youth Population August 31, 2021**

Metropolitan circuits [16, 21, & 22] account for roughly 39% of all youth detained in Missouri on the last day of August 2021.

**Note:** Non-JDAI sites with detention facilities are shaded.

Youth Population on August 31, 2021		
Circuit	Population	Percent MO Youth Detained
2	9	6.4%
5	1	0.7%
7	5	3.5%
11	10	7.1%
13	13	9.2%
16	14	9.9%
17	8	5.7%
19	3	2.1%
21	25	17.7%
22	16	11.3%
23	6	4.3%
24	6	4.3%
26	2	1.4%
29	5	3.5%
31	2	1.4%
33	11	7.8%
35	3	2.1%
44	2	1.4%
<b>Grand Total</b>	<b>141</b>	<b>100.0 %</b>

**Figure 7-1 Total Admissions by Sex**

There were 2,016 admissions to secure detention facilities in CY21. Males [1,616] accounted for 80% of these admissions. Females accounted for 20% [397]. Missing Data [3]

**Total Detention Admissions by Sex**

**Total Detention Admissions by Race****Figure 7-2 Total Admissions by Race**

White youth accounted for 51% [1,032] of admissions to secure detention facilities while black youth accounted for 43% [875]. Hispanic youth accounted for 3% [70] of admissions, while Asian/Pacific Islander youth [9] and Native American youth [3] accounted for less than 1% combined. Missing Data [27]

**Total Detention Admissions by Sex and Race****Figure 7-3 Total Admissions by Sex and Race**

Among male detainees, white males accounted for the largest number of admissions to secure detention facilities [50%, 806], followed by black males [45%, 720]. Among female detainees, white females accounted for the largest percentage of admissions to a detention center [57%, 226], followed by black females [39%, 154]. Missing data [28]

**Total Detention Admissions by Age Group****Figure 7-4 Total Admissions by Age Group**

Youth between the ages of 15 and 16 years accounted for the majority of admissions [53%, 1,061], followed by ages 13-14 [25%, 505]. The age groups of 17 years or older [19%, 376] and 12 years or younger [4%, 72] accounted for the lowest percentage of admissions across age groups. Missing Data [2]

**Figure 7-5 Total Admissions by Sex and Age Group**

Male youth, 15 to 16 years old, represented the greatest number of admissions to detention facilities [42%, 846].  
Missing Data [3]

**Figure 7-6 Total Admissions by Race and Age Group**

White youth, 15 to 16 years old, represented the greatest number of admissions to detention facilities [27%, 544], followed by black youth of the same age group [23%, 455].  
Missing Data [27]

**Figure 7-7 Average Daily Population by Sex**

The statewide average daily detention population was 129. The vast majority [111, 86%] of these detainees were male.  
Missing Data [4]

**Average Daily Population by Race****Figure 7-8 Average Daily Population by Race**

The statewide average daily population for black youth [73] in secure detention was greater than all other youth combined [55].

Missing Data [28]

**Average Daily Population by Sex and Race****Figure 7-9 Average Daily Population by Sex and Race**

Within sex, the statewide average daily detention population was greatest for black males [65]. For the female population, white detainees had the highest average daily detention population [9].

Missing Data [28]

**Average Daily Population by Age Group****Figure 7-10 Average Daily Population by Age Group**

Within age groups, the statewide average daily detention population was greatest for 15-16-year old youth [73], followed by 13-14 year old youth [26]. The average daily population was the lowest for ages 12 and younger [4].

Missing Data [2]

**Figure 7-11 Average and Median Length of Stay by Sex**

The statewide average length of stay in detention facilities was 23 days for males and 15 days for females.

Missing Data [4]

**Figure 7-12 Average and Median Length of Stay by Race**

Statewide, black youth had the longest average length of stay of 28 days and had the longest median length of stay of 10 days.

Missing Data [27]

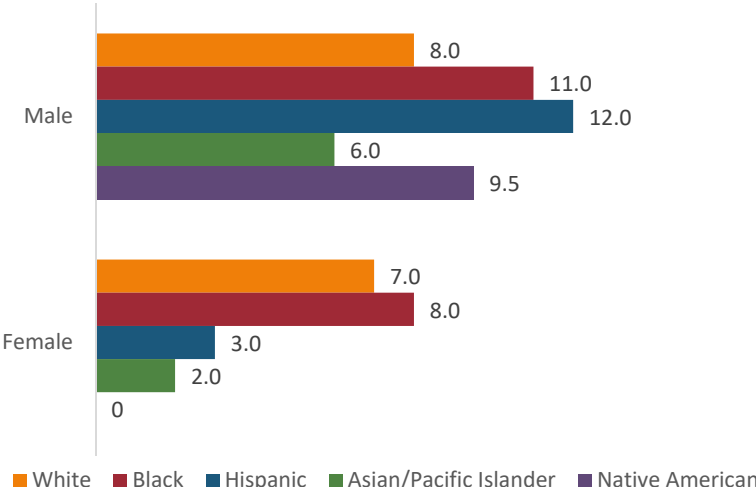

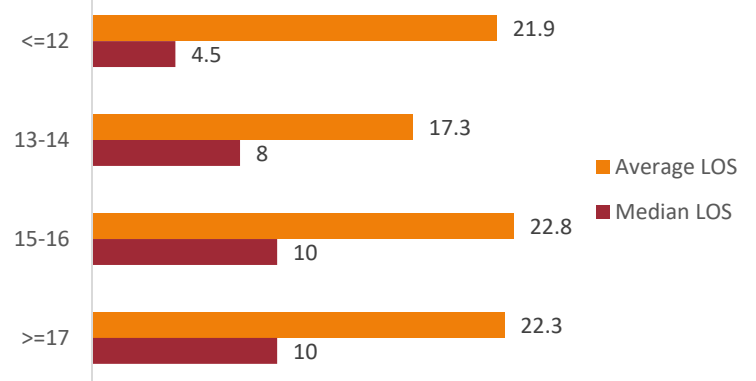

**Figure 7-13 Average Length of Stay by Sex and Race**

The statewide average length of stay was longest for Black males at 30 days. Also, Black females at 19 days was the longest average length of stay amongst females in detention.

Missing Data [27]

## Section 8: Division of Youth Services Commitments

Section 8 presents demographic information on youth committed to the Division of Youth Services (DYS) identified by a docket entry of DDYS – Committed to DYS on the ***Custom Docket Entry and Maintenance (CDADOCT)*** form of JIS in calendar 2021. For circuit level information on these commitments, refer to Appendix M. Assuming commitments to DYS are entered into JIS only once for a youth, the count is unduplicated. (**Note:** Docket entries in JIS produce data different from that historically reported by DYS.)

## Section 8: Division of Youth Services Commitments

				Race				
				White	Black	Hispanic	Native American	Asian/ Pacific Islander
Sex	Male	Age	<=12	2	0	0	0	0
			13	21	6	0	0	0
			14	37	14	2	0	0

**Figure 8-3**  
**Statewide DYS**  
**Commitments**  
**by Sex, Race,**  
**and Age Group**

White males age 16 [56] were the most common group committed to DYS. This was more than all females combined [47]. Females age 17 had the same amount of commitments for black youth [2] and white youth [2]. All other age groups had more white youth commitments than minority youth in CY21. Missing Data [1]

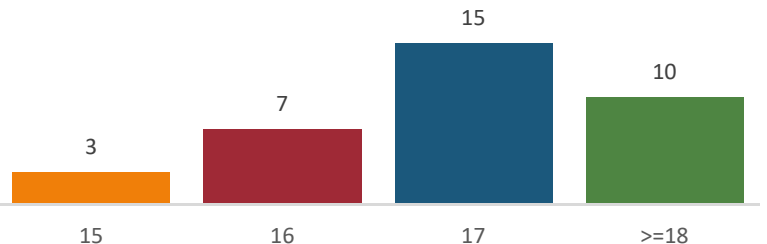

**Figure 8-3  
Statewide DYS  
Commitments  
by Sex, Race,  
and Age Group**  
White males age 16 [56] were the most common group committed to DYS. This was more than all females combined [47]. Females age 17 had the same amount of commitments for black youth [2] and white youth [2]. All other age groups had more white youth commitments than minority youth in CY21. Missing Data [1]

## Section 9: Certification to Adult Court

Section 9 presents demographic information about youth certified to adult court, identified by the docket entry of DJVCA - JUV Certified to Adult Court on the ***Custom Docket Entry and Maintenance (CDADOCT)*** form of JIS in calendar 2021. For additional circuit level information about these certifications, refer to Appendix N. Assuming certifications are entered into JIS only once for a youth, the count presented is unduplicated.

The Missouri Juvenile Officer Performance Standards (2017) section 5.4 Certification mandates “the juvenile officer shall consider the implications of certification and consider certification only in circumstances in which issues of public safety cannot be mitigated by supervision and services in the juvenile justice system.”

<p><b>Figure 9-1 Certifications by Sex</b> The statewide total for offenders certified to adult court was 35. Majority were males [94%, 33]. Missing Data [0]</p>	<p><b>Statewide Certified Youth by Sex</b></p>  <table border="1"> <thead> <tr> <th>Sex</th> <th>Count</th> </tr> </thead> <tbody> <tr> <td>Male</td> <td>33</td> </tr> <tr> <td>Female</td> <td>2</td> </tr> </tbody> </table>	Sex	Count	Male	33	Female	2				
Sex	Count										
Male	33										
Female	2										
<p><b>Figure 9-2 Certifications by Race</b> The percentage of offenders certified to adult court was greater for black youth [57%, 20] than for white youth [43%, 15]. Missing Data [0]</p>	<p><b>Statewide Certified Youth by Race</b></p>  <table border="1"> <thead> <tr> <th>Race</th> <th>Count</th> </tr> </thead> <tbody> <tr> <td>White</td> <td>15</td> </tr> <tr> <td>Black</td> <td>20</td> </tr> <tr> <td>Hispanic</td> <td>0</td> </tr> <tr> <td>Asian/Pacific Islander</td> <td>0</td> </tr> </tbody> </table>	Race	Count	White	15	Black	20	Hispanic	0	Asian/Pacific Islander	0

<p><b>Figure 9-3 Certifications by Age</b> The largest portions of offenders certified to adult courts were 17 years old [43%, 15] and 18 years or older [29%, 10]. Twenty percent [7] were 16 years old and the remaining 9% [3] were 15 years old. Missing Data [0]</p>	<p><b>Statewide Certified Youth by Age</b></p>  <table border="1"> <thead> <tr> <th>Age</th> <th>Count</th> </tr> </thead> <tbody> <tr> <td>15</td> <td>3</td> </tr> <tr> <td>16</td> <td>7</td> </tr> <tr> <td>17</td> <td>15</td> </tr> <tr> <td>&gt;=18</td> <td>10</td> </tr> </tbody> </table>	Age	Count	15	3	16	7	17	15	>=18	10
Age	Count										
15	3										
16	7										
17	15										
>=18	10										

**Figure 9-4 Certification Trends by Race**

Since 2011, the number of black offenders certified to adult courts has decreased 61% and the number of white offenders decreased by 32%.

From 2020 to 2021, the total number of certifications increased by 13%. The number of black offenders certified increased 11%, and the number of white offenders increased by 15%. There were no offenders of the other races certified in 2021.

## Section 10: Juvenile Offender Recidivism

---

Juvenile divisions across the country are being asked to provide evidence that public funds are used in cost-effective ways to reduce and prevent juvenile crime. For Missouri juvenile divisions to measure progress in this area, the following statewide definition of juvenile offender recidivism was developed through consensus:

*“A juvenile offender recidivist is any youth, referred to the juvenile office for a legally sufficient law violation during a calendar year, who receives one or more legally sufficient law violation(s) to the juvenile or adult court within one year of the initial referral’s disposition date.”*

Section 10 presents the demographic and offense characteristics that influenced recidivism rates for the calendar 2020 cohort of Missouri juvenile law offenders who were tracked through calendar 2021 for recidivism. Note that recidivism is tracked by the offender’s party id entered in JIS and is only tracked if the new offense occurs in the same circuit as the original offense.

**Offender Population as a Proportion of Missouri Youth**

**Figure 10-1 Missouri Youth Offender Population**

Approximately 0.7% [4,477] of the 624,715 juveniles aged 10-17 were referred to Missouri's juvenile and family division for legally sufficient law violation referrals in CY20.

**Percentage of Youth Recidivating**

**Figure 10-2 Percentage of Youth Recidivating (All Law)**

Approximately 20% [877] of the 4,477 juvenile law offenders in CY20 recidivated through a new law violation within one year of the disposition date of their initial referral.

**Percentage of Youth Recidivating (Felonies or Misdemeanor A)**

**Figure 10-3 Percentage of Youth Recidivating (Misd A or Felony)**

Roughly 14% [617] of the 4,477 juvenile law offenders in CY20 recidivated either with a new Class A misdemeanor or felony offense within one year of the disposition date of their initial referral.

**Figure 10-4 Percentage of Youth Recidivating (Felony Charges)**

Eight percent [337] of the 4,477 juvenile law offenders in CY20 recidivated with a felony offense within one year of the disposition date of their initial referral.

**Percentage of Youth Recidivating (Felony Charges)**

**Figure 10-5 Percentage of Youth Recidivating by Year**

The percentage of the recidivists with any law violation decreased by 1.0% between the 2019 cohort and the 2020 cohort. The percent of youth who recidivated with either a Class A misdemeanor or felony stayed the same between the cohorts. The percentage of youth recidivating with a felony increased by 0.4% from CY19 cohort.

**Percentage of Youth Recidivating by Year**

**Figure 10-6 Percentage of Youth Recidivating by Sex**

Males [21.1%] from the CY20 cohort recidivated at a higher rate than their female [15.8%] counterparts. This holds true for those who recidivated with either Class A misdemeanor or felony offense, as well as for those who recidivated with only a felony offense.

**Percentage of Youth Recidivating by Sex**

**Percentage of Youth Recidivating by Race****Figure 10-7 Percentage of Youth Recidivating by Race**

Proportionately, black youth [22%, 292] from the CY20 cohort had a higher rate of recidivism than their other minority counterparts [14%, 22] and white counterparts [19%, 559] for all law referrals. The same holds true for referrals for felonies with class A misdemeanors, as well as all felony charges.

**Percentage of Youth Recidivating by Circuit Type****Figure 10-8 Percentage of Youth Recidivating by Circuit Type**

Recidivism from CY20 for all law violations was higher for youth in multi-county circuits [21%, 525] than for youth in single county circuits, [18%, 352]. However, the percentages were higher for Class A misdemeanors and felonies [14%, 279] in single county circuits than in multi-county circuits [14%, 338], and also higher for just felony referrals in single county circuits [8%, 161] than in multi-county circuits [7%, 176].

**Percentage of Youth Recidivating by Age Group****Figure 10-9 Percentage of Youth Recidivating by Age**

The percentage of recidivism is highest for youth between the ages of 13 and 14 years for all types of offenses, except felony only charges. Proportionately, youth 17 years or older had a higher recidivism rate for felonies [11%, 11].

## Section 11: Racial and Ethnic Disparity

---

### Racial and Ethnic Disparity (RED) Initiative

RED is one of four core requirements of the Juvenile Justice and Delinquency Prevention Act of 1974, as amended in 2002. All states are required by the Office of Juvenile Justice and Delinquency Prevention (OJJDP) to make efforts to document and reduce RED. The Juvenile Justice and Delinquency Prevention Act was reauthorized in 2018, also known as the Juvenile Justice Reform Act of 2018. One of its key components is to further determine if there are racial and ethnic disparities (RED) identified within in the juvenile justice system and actively work to address those issues by identifying and analyzing data on race and ethnicity at decision points in State, local or tribal juvenile justice systems to determine which such points create racial and ethnic disparities among youth who come into contact with the juvenile justice system.

Disproportionate minority contact occurs whenever the overall volume of activity for minority youth at various juvenile justice contact points is disproportionately larger than the volume of activity for white youth at those points. It is important to examine *all* juvenile justice contact points due to the likelihood that minority youth will penetrate deeper into the juvenile justice system as a result of disproportionate minority contact with the system. Racial and ethnic disparities further involve the unfair or inequitable treatment of youth of color at those decision points in the juvenile justice system due to various reasons.

The existence of disproportionality does not necessarily mean that minority youth are experiencing disparity (or unequal treatment), because further analysis is needed to determine whether or not disproportionality is a consequence of disparities and/or other contributing mechanisms.

The Missouri Juvenile Officer Performance Standards (2017) section 1.15 Antidiscrimination and Disproportionate Minority Contact mandates “the juvenile officer shall prohibit discrimination and proactively address racial and ethnic disparities to ensure fundamental fairness and equal justice for those served by the juvenile office.”

### What is a Relative Rate Index (RRI)?

The data analysis of the OJJDP Relative Rate Index (RRI) compares the relative volume of activity (rate) for eight court contact points for each minority youth group with the volume of activity (rate) for the majority group (white youth). It provides a single index number that indicates the extent to which the volume of contact differs.

Because the Relative Rate Index is intended to capture the overall extent of youth involvement with the juvenile justice system, the RRI calculation is based on *cases*, not individual *youth*. If a youth is referred to the juvenile court multiple times during the course of a single year, all of those referrals are included. Therefore, the data provided include ***duplicated*** counts for all court contact points.

**Example:** The RRI comparing rates of referral to juvenile court:

Rate of Referral for black youth:

$$\frac{\text{\# of black youth referred}}{\text{\# of black youth in population}} = \frac{150}{500} = 0.30 \times 1000 = 300$$

Rate of Referral for white youth:

$$\frac{\text{\# of white youth referred}}{\text{\# of white youth in population}} = \frac{200}{5000} = 0.04 \times 1000 = 40$$

Relative Rate Calculation for Referrals:

$$\frac{\text{Rate of Referral for black youth}}{\text{Rate of Referral for white youth}} = \frac{300}{40} = 7.5 \text{ RRI}$$

If the RRI is larger than 1.0, that means that the minority group experiences contact more often than white youth. If it is less than 1.0, that means that contact is less frequent. In this example, the RRI for black referrals is 7.5. This means that black youth are seven and a half times more likely to be referred to the juvenile office than white youth.

With the exception of the first rate (referral), which is calculated using the base of the number of youth in each major racial/ethnic grouping in the general population, each of the subsequent RRI is calculated based on the volume of activity for that racial/ethnic group in a proceeding stage in the case process. See Table 11-1.

**Table 11-1: Identifying the Numerical Bases for Rate Calculations**

Decision Stage / Contact Point	Base for Rates
Referrals to Juvenile Court	Rate per 1,000 Population
Referrals Diverted	Rate per 100 Referrals
Referrals Involving Secure Detention	Rate per 100 Referrals
Referrals Petitioned	Rate per 100 Referrals
Referrals Resulting in Delinquency Findings	Rate per 100 Petitions
Referrals Resulting in Supervision / Probation Placement	Rate per 100 Delinquency Findings
Referrals Resulting in Confinement in Secure Juvenile Correctional Facilities	Rate per 100 Delinquency Findings
Referrals Transferred to Adult Court	Rate per 100 Petitions Filed

**Table 11-2: Relative Rate Index (RRI) Values**

Area of Concern	Decision States or Contact Points
More than 1.00	Referrals to Juvenile Court Referrals Involving Secure Detention Referrals Petitioned Referrals Resulting in Delinquency Findings Referrals Resulting in Confinement in Secure Juvenile Correctional Facilities Referrals Transferred to Adult Court
Less Than 1.00	Referrals Diverted Referrals Resulting in Supervision / Probation Placement

**Note:** RRI values that cause RED concern can be greater than 1.00 or less than 1.00.

#### What Data are Used?

- U.S. Census data for youth ages 10-17 in all counties in Missouri.
- Census data from the previous calendar year was used, because the Census population updates for the current year are not available at the time of publication.
- Office of State Courts Administrator delinquency data in the Judicial Information System (JIS). Law violation referrals and status referrals (but not child abuse and neglect referrals) were included.
- Transfers to other juvenile court referrals were not included.

**Table 11-3: 2021 Statewide Relative Rate Indices**

Black youth experienced the largest disproportionality overall. Black youth were over-represented at referral, while Hispanic and Asian /Pacific Islander youth were under-represented at that contact point. Black youth also experienced negative disproportionality at: diversion, secure detention, petition, and secure confinement.

Contact Point	Black	Hispanic	Asian / Pacific Islander	Native American
Referral	<b>1.94</b>	<b>0.44</b>	<b>0.23</b>	**
Diversion	<b>0.94</b>	0.95	0.92	**
Secure Detention	<b>1.72</b>	1.28	1.31	**
Petition	<b>1.30</b>	<b>1.30</b>	<b>1.57</b>	**
Delinquent Findings	<b>0.91</b>	0.98	**	**
Supervision	<b>0.87</b>	1.06	**	**
Secure Confinement	<b>1.42</b>	1.39	**	**
Certification	<b>3.97</b>	**	**	**

Statistically significant results

**Bold Font**

Group is less than 1% of youth population

\*

Insufficient number of cases for analysis

\*\*

**Note:** Caution should be used when interpreting the Hispanic data, because race and ethnicity are not separated in JIS. Thus, Hispanic youth are under-counted.

**Figure 11-1 Ten-Year Trend of Statewide RRI for Referrals of Black Youth**

While the number of referrals has declined over the last decade, the RRI for referrals of black youth has remained relatively steady with the highest in 2013 at 2.3 and the lowest in 2018 and 2021 at 1.9. The reason for this is that, although referrals declined for all youth from 2012 to 2021, they did not do so evenly across groups in each year.

**What is percent change?**

The percent change calculation compares the year over year amounts of referrals, diversion, detention, petitions, delinquent findings, supervision, secure confinement and certifications for each minority youth group. This provides a measurement of how data has changed year over year. OJJDP changed their reporting requirements from RRI to percent change in 2021 for Racial and Ethnic Disparity research.

The percent change calculations for each contact point uses the number of cases, not the number of youth. If a youth is referred to the court multiple times in a year, each of those cases are included in the calculation. Therefore, the data provided include duplicated counts for all court contact points.

Example: The percent change of referrals to juvenile courts.

Calendar Year 2020:

Number of referrals: 100

Calendar Year 2021:

Number of referrals: 150

Percent Change Calculation:

$(150-100)/100 \times 100 = 50\% \text{ increase}$

In this example, referrals increased from 100 to 150 leading to a 50% increase. If the percent is negative then there was a decrease year over year. If a location began with any number larger than 0, but then the next year had 0 cases, the percent increase will be -100% (100% decrease). If a location started with 0, then increased its case count to any other number, the percent change calculation will return an undefined result, because the case count can not be divided by zero.

## Section 11: Racial and Ethnic Disparity

**Table 11-4: 2021 Statewide Law and Status Offenses by Race Percent Change**

The largest increases occurred in the Delinquency Findings, Petitions, Supervision, and Detention, each with double digit growth. Adult transfers saw a decrease of just over 9% statewide, but this is largely due to a reduction of adult transfers for white youth by over 52%. Black and Hispanic youth actually experienced an increase of adult transfer cases.

These increases could be explained by a few different factors, unique to the 2020-2021 timeframe. First, in 2021, the statewide “Raise the Age” legislation went into effect, which allowed for youth up to 18 years of age to continue to be charged as juveniles. Therefore, the 2020 data included youth 10-16 years of age, however the 2021 data included youth 10-17 years old. Also due to the pandemic, in 2020 and 2021, many courts and juvenile justice facilities modified their activities to follow local health safety guidelines. Therefore, increases in case counts were expected as juvenile offices returned to pre-pandemic activities.

Contact Point	White CY2020	White CY2021	Percent Change	Black CY2020	Black CY2021	Percent Change	American Indian CY2020	American Indian CY2021	Percent Change

**Note:** U\* denotes an undefined result because the case count can not be divided by zero.

## Section 12: Juvenile Officer Workload

---

The Juvenile Officer Weighted Workload (JOWWL) system is an automated means of estimating the direct service need for additional deputy juvenile officers in Missouri's 35 multi-county circuits. The JOWWL compares the number of staff hours required to screen and process the status, law, and CA/N referrals received by juvenile divisions and to supervise youth in accordance with the **Missouri Juvenile Officer Performance Standards**, against the actual number of staff hours available to complete these direct service activities. When workload demand exceeds the number of staff hours available to meet it, a need for additional direct service personnel is projected. The Circuit Court Budget Committee (CCBC) adopted and first used the results of the JOWWL for estimating FTE needs for juvenile officers in fiscal 2004. The CCBC has since used the JOWWL annually for this budgetary purpose. In January of 2020 a new workload study was conducted by the National Center for State Courts, and a new model was delivered the summer of 2020. The new model adjusted workload weights for various case processing activities and eliminated the Alternatives to Detention case processing category.

### Example of Workload Estimate for Mock Multi-County Circuit

**Annual Case-Specific Workload:** Annual total work minutes required to service juvenile cases at established standards includes screening, processing and supervising delinquency and CA/N cases, based on workload values identified by the 2020 juvenile officer workload study [Table 12-1].

*Example: Mock Circuit, 255,314 minutes of direct service work are required to accommodate case management demand.*

**Staffing Demand:** Total number of direct service staff needed to meet Annual Case-Specific Workload. (Annual available work minutes per Juvenile Office is 75,761)

*Example: Mock Circuit, Total Annual Case-Specific Workload / 75,761 mnts. = Staffing Demand (255,314 / 75,761 mnts. = 3.4 direct service staff needed).*

**Circuit FTE:** Total number of direct service staff currently employed by circuit.

*Example: Mock Circuit employs 2 direct service staff. Currently this includes all state-paid DJO I, II & III positions and all full-time staff paid through DYS diversion grant funds.*

**FTE Need:** Additional direct service staff needed to service Total Workload Hours per standards.

*Example: Mock Circuit, Staffing Demand – Circuit FTE = FTE Need (3.4 - 2.0 = 1.4 additional direct service staff).*

## Section 12: Juvenile Officer Workload

Table 12-1 Workload Values per Year from Juvenile Officer Workload Study (2020)		
Section Name	Column Description	Workload Value (Mnts.)

## Section 13: CA/N Time Standards

---

In March 2005, the Supreme Court of Missouri issued an order adopting Court Operating Rule (COR) 23.01, Reporting Requirements for Child Abuse and Neglect Cases, effective July 1, 2005. This COR requires the presiding judge in each circuit to submit a quarterly report (CA/N Quarterly) to OSCA. The CA/N Quarterly Report lists all child abuse and neglect hearings where standards were not met during the quarter. These standards are based on the requirements of Supreme Court Rule 124.01, Rules of Practice and Procedure in Juvenile Divisions and Family Court Divisions of the Circuit, which states that the following hearings shall be held:

- 1) Within three days, excluding Saturday, Sunday and legal holidays, a protective custody hearing
- 2) Within 60 days, an adjudication hearing
- 3) Within 90 days, a dispositional hearing
- 4) Every 90 to 120 days after the dispositional hearing during the first 12 months in which the juvenile is in the custody of the children's division, a dispositional review hearing
- 5) Within 12 months and at least annually thereafter, a permanency hearing
- 6) As often as necessary after each permanency hearing, but at least every six months, during the period in which the juvenile remains in the custody of the children's division, a permanency review hearing.

The data from each circuit is compiled into a final report and submitted to the Chief Justice of the Supreme Court of Missouri and the Commission on Retirement, Removal and Discipline

The Missouri Juvenile Officer Performance Standards (2017) section 5.7 Timeliness of Proceedings and Applicable Time Standards mandates "the juvenile officer shall ensure the timely scheduling of all hearings and not be a party to undue and unnecessary delays. Further, the juvenile officer shall comply with established time standards in the scheduling of hearings to the extent such is in control of the juvenile officer and serves the interest of justice."

**Table 13-1 CA/N Hearings  
Held Timely**

In FY21, the juvenile and family divisions conducted the required CA/N hearings in a timely fashion. Thirty-two divisions held 95% or more of their hearings on time; while at the statewide level, 93% of hearings were held timely.

## Section 14: Juvenile & Family Division Programs and Diversion

---

Juvenile Officers across the state of Missouri provide a variety of programming to youth and their families on a daily basis to address their particular risk and needs. These programs are intended to decrease recidivism, promote accountability, enhance community safety, enhance child and family safety, and teach prosocial behaviors. The programs detailed below are programs that have been documented in the Justice Information System.

The Missouri Juvenile Officer Performance Standards (2017) section 2.4 Diversion mandates “the juvenile officer shall utilize evidence-based diversion programming whenever appropriate.” Section 3.13 Specialized Services and Treatment mandates “the juvenile officer shall provide specialized services and treatment specific to the offense, gender, and culture of the juvenile to the extent practicable based on available resources.”

These programs are categorized into several main areas listed below:

- **Accountability Programs:** These programs primarily try to teach youth how to take responsibility for their actions and empower them to develop more prosocial behaviors at home, school, and in the community.
- **Alternative Court Programs:** These are specialty court dockets or programs that are meant to address a specific problem area for youth and provide accountability, education, and resources for a specific issue.
- **Anger Management/Conflict Resolution Programs:** These programs are meant to teach youth how to effectively identify their anger and manage it appropriately in a variety of social settings.
- **Diversionary Programs:** Diversionary Programs are programs that are meant to divert youth from various entry points into the juvenile justice system. Diversion programs are divided into four levels based on the time that the offense is committed by the juvenile and when the juvenile participates in the program.
  - Level one diversion programs are used to completely prevent unnecessary referrals from coming to the juvenile office.
  - Level two diversion programs are used when the actions of a juvenile could result in a referral to the juvenile officer.
  - Level three diversion programs divert youth referred to the juvenile court from formal court action into appropriate community based programs.
  - Level four diversion programs divert youth referred to the juvenile office from secure confinement or commitment to the Missouri Division of Youth Services so that they can remain in the community.

- **Gender Specific Programs:** These programs provide prosocial interventions and education specific to the needs of boys or girls that are involved with the juvenile justice system.
- **Health and Fitness Programs:** These programs are meant to promote the overall health and well-being of youth referred to the juvenile justice system.
- **Mental Health Programs:** These programs provide a variety of mental health services to a youth or their family that address both the internal and external issues that may be contributing to problematic behaviors by youth.
- **Monitoring Programs:** These programs primarily monitor the whereabouts and activities of youth to promote community safety according to a youth's risk level.
- **Parenting Education and Support Programs:** These programs are meant to provide education, resources, and support to parents or guardians whose children are involved in either the juvenile justice system or child welfare system.
- **Problem Sexual Behavior and Offending Programs:** These programs are meant to provide education and support to youth referred to the court for problem sexual behaviors or sex offenses to try to prevent re-offense and promote more prosocial thought patterns.
- **Prosocial Juvenile Programs:** These programs created by juvenile officers are innovative and may fit into several categories.
- **School and Academic Related Programs:** These are programs that are meant to promote success for youth in school and the educational setting.
- **Sexual Education Programs:** These programs are meant to provide overall education and support to youth involved with the court to improve their health and who are at risk for pregnancy, sexual violence or receiving a sexually transmitted infection.
- **Substance Abuse Programs:** These are programs that are meant to provide education, treatment, and support to youth who have been referred for substance related offenses or identify as having a substance abuse problem.
- **Victim Education and Restorative Justice Programs:** These are programs that are meant to provide education to youth regarding the impact of their offense on the victim and promote empathy for the victim. These programs further provide services that are meant to restore for the victim what has been done wrong by the juvenile.
- **Vocational and Life Skills Development Programs:** These are programs that meant to teach youth skills that can help them demonstrate socially appropriate behaviors and gain and retain employment in the community.

## Section 14: Juvenile & Family Division Programs and Diversion

<p><b>Table 14–1 Juvenile Program Categories and the number of participants</b></p> <p>In CY21 there were 8,765 juveniles that participated in court sponsored programs.</p> <p>Monitoring was the most frequently used program category with participants [1,836, 21%].</p> <p>Victim Education and Restorative Justice [1,561, 18%], Vocational or Life Skills [1,317, 15%], and Mental Health [1,150, 13%], were the other most common program categories.</p> <p>Missing Data [0]</p>	<table><tr><th>Juvenile Program Categories CY21</th><th>Number of Participants</th><th>Percent of Total</th></tr><tr><td>Accountability</td><td>644</td><td>7.3%</td></tr><tr><td>Alternative Court</td><td>152</td><td>1.7%</td></tr><tr><td>Anger Management/Conflict Resolution</td><td>194</td><td>2.2%</td></tr><tr><td>Gender Specific Programming</td><td>247</td><td>2.8%</td></tr><tr><td>Health and Fitness</td><td>103</td><td>1.2%</td></tr><tr><td>Mental Health</td><td>1,150</td><td>13.1%</td></tr><tr><td>Monitoring</td><td>1,836</td><td>20.9%</td></tr><tr><td>Parenting Education and Support</td><td>251</td><td>2.9%</td></tr><tr><td>Problem Sexual Behavior and Offending</td><td>28</td><td>0.3%</td></tr><tr><td>Prosocial Activities</td><td>104</td><td>1.2%</td></tr><tr><td>School or Academic Support</td><td>286</td><td>3.3%</td></tr><tr><td>Sexual Education</td><td>10</td><td>0.1%</td></tr><tr><td>Substance Abuse</td><td>882</td><td>10.1%</td></tr><tr><td>Victim Education and Restorative Justice</td><td>1,561</td><td>17.8%</td></tr><tr><td>Vocational and Life Skills Development</td><td>1,317</td><td>15.0%</td></tr><tr><td><b>Total</b></td><td><b>8,765</b></td><td><b>100.0%</b></td></tr></table>	Juvenile Program Categories CY21	Number of Participants	Percent of Total	Accountability	644	7.3%	Alternative Court	152	1.7%	Anger Management/Conflict Resolution	194	2.2%	Gender Specific Programming	247	2.8%	Health and Fitness	103	1.2%	Mental Health	1,150	13.1%	Monitoring	1,836	20.9%	Parenting Education and Support	251	2.9%	Problem Sexual Behavior and Offending	28	0.3%	Prosocial Activities	104	1.2%	School or Academic Support	286	3.3%	Sexual Education	10	0.1%	Substance Abuse	882	10.1%	Victim Education and Restorative Justice	1,561	17.8%	Vocational and Life Skills Development	1,317	15.0%	<b>Total</b>	<b>8,765</b>	<b>100.0%</b>

During CY2021, over 15,900 youth have been referred to and participated in a variety of programs and services offered by juvenile offices across the state. This section highlights several programs submitted by various juvenile offices around the state and serve as examples of the wide range of beneficial programs and services available to Missouri youth involved with the juvenile justice system.

### **Sixth Circuit - Youth Accountability Diversion- Adolescents and Parents Together Program**

The Platte County Juvenile Office initiated the Youth Accountability Diversion Program in August 1993, which allows youth to participate on a formal or informal basis as a level three diversion program. Since the start of the program, 644 youth have participated in the program. Of the youth who have successfully completed the program and aged out of the juvenile system (turned 18) and were under 21 years old, Missouri Case.net reveals 99% of those youth had no adult criminal convictions in Missouri as of December 31, 2021.

Participation in the Youth Accountability Diversion Program is a privilege. The judge makes the decision whether youth are accepted into the program; therefore, the burden to prove appropriateness is placed upon the youth to show they deserve the opportunity to participate. Youth voluntarily appear before the judge for a contract hearing. Participation requires the cooperation of the youth and custodial parents. The parents, as well as the youth, must agree to attend and complete a variety of programs and activities together. Parental participation is a key to the program's success. The contract sets the time frame and behavioral performance expectations for the youth and parents. If the judge approves the contract, the youth is placed into the diversion program. When the youth successfully completes the terms of the contract, a request is made to the court to dismiss the petition. If the youth fails to complete the contract, an adjudication hearing is scheduled.

The ultimate goal of the Youth Accountability Diversion Program is to impact delinquency offenders through short-term, high impact services to help ensure their continued presence in the home, by the reduction of subsequent referrals for law violations. The diversion program allows intervention as an alternative to court adjudication. Services include monetary restitution, community service, mandatory participation in the adolescent/parent education program, drug prevention program, anger control program, and other services as needed. Youth and their parents who are on informal supervision are also invited to participate in this program to receive additional services as needed. In calendar year 2021, 25 youth and 31 parents participated in the eight-week program.

### **23<sup>rd</sup> Circuit – Violence Prevention Project**

The Violence Prevention Project is an effort to provide educational and awareness services to a specific population of youth with the intent of diverting these youth from further involvement in the juvenile justice system. The target population for this project are those youth who have been referred to the juvenile office for exhibiting acts of aggressive or assaultive behavior. School districts and law enforcement agencies in Jefferson County are viewed as the primary sources of such referrals. By partnering with the school districts, the opportunity to identify these youth at an early age is afforded. Through early identification, the juvenile office can intervene to prevent further aggressive acts by the youth in the home, school or community and divert the youth from potential formal involvement with the juvenile court.

The Jefferson County Juvenile Office has partnered with Chestnut Health Systems to provide an extensive six-week anger management course to the youth and families in our community. The preferred target age range for these services are juveniles between the ages of twelve years old and sixteen years old. Chestnut provides breakout sessions for both the youth and their parents to provide specific instruction for both groups.

The anticipated goals for this project are to identify and intervene with youth for aggressive and assaultive behaviors at an earlier stage in order to divert them away from the juvenile justice system and potential commitment to the Missouri Division of Youth Services. During calendar year 2021, 16 youth actively participated in this program.

### **36<sup>th</sup> Circuit – Juvenile Diversion Program**

The Juvenile Diversion Program targets youth nine to 17 years of age. The program provides life skills education which includes drug and alcohol prevention, money management, job application assistance and health/well-being improvement sessions. The program staff implement and deliver classes along with other community partners such as SEMO Behavioral Health, Butler County Health Department and the University of Missouri Extension Office.

The program also provides scheduling and supervision of community service hours. The 36<sup>th</sup> Circuit Juvenile Diversion Program partners with the University of Missouri Extension Office to plant a community garden maintained on juvenile office grounds. Youth are given community service credit hours for time spent in the garden. The garden allows for the youth to plant, care for and produce vegetables to share with their families and other community members. As part of the programming, youth are given a cooking class where they are shown how to prepare and cook the vegetables grown in the garden. Many of the youth show a lot of pride in their accomplishments and ask to help maintain the garden after their release from the program.

This program encourages youth accountability, to include drug testing, in-patient or out-patient drug/alcohol treatment and mental health referrals. Emphasis is placed on diversion from the Missouri Division of Youth Services and formal court supervision as a level three and level four diversion program.

For calendar year 2021, there were 283 youth served by the program. 209 of those youth were diverted from commitment to the Missouri Division of Youth Services and formal court supervision.

### **38<sup>th</sup> Circuit – Christian County Diversionary Services**

Christian County Diversionary Services started in 2019. The mission is to maximize the potential for selected students in Christian County and instill hope through a supportive partnership between the student's family, the school, the court system and the community for the purpose of strengthening each student's readiness for the future.

Students and families are selected for diversionary services when the student begins to make a pattern of undesirable choices in school. Those choices could be truancy from school, failure to thrive academically, numerous office referrals in a short amount of time, or a single very serious office referral from someone who isn't normally referred to the office for discipline.

After a student is referred to the program, the Diversion Specialist contacts the family to discuss whether or not the diversion program will work for the family. Since it is a voluntary program, it is essential all stakeholders are fully committed to the success of the child involved in the process.

Once the paperwork is signed and submitted, the student and Diversion Specialist meet many times throughout the week, individually or in a classroom setting, with other students involved in the diversion program. During the individual meetings, goals, struggles and solutions are discussed and agreed upon. During class, the students walk through a curriculum which emphasizes self-awareness, self-assessment and self-regulation. This is done through direct instruction supplemented with activities to help the students build positive relationships with the Diversion Specialist and other students. These positive activities, habits, and relationships help guide the students and give them the support they need to make positive changes necessary for success in the program and in life.

The diversion meetings consist of stakeholders which include the student, parents/guardians, a representative from the juvenile office, a representative from school administration, the Diversion Specialist and the juvenile court judge. If the student is in phase one or two of the program, meetings are held every other week. If the student is in phase three or four of the program, meetings are held every month. The students are monitored closely and through a communication network with counselors, social workers and teachers. The program aims to provide transparency to help in identifying underlying issues which may cause problematic behaviors.

Students enter the program in phase one and staff get to know the student and the family. After some improvements are made with grades, attendance or behavior, the student is usually moved to phase two of the program. In phase two of the program, students continue to meet every other week and focus on goals. During this phase, a “Resilience Plan” is created to help students plan for difficult situations, thoughts and emotions in order to achieve behavior consistency. During phase three, meetings are reduced to once a month and the student is given more opportunities to make positive, independent decisions. The student also writes a letter of self-reflection about positive changes they have made. If the student is successful during this phase, they may be moved to phase four. If there are further negative behaviors, the student may be held on phase three or moved back down to phase two. Finally, in phase four, students create a plan for success for when they leave the program and if positive behaviors continue, the student graduates from the program. After students graduate from the program, the Diversion Specialist continues to meet with the student either monthly or bi-weekly to maintain a positive connection with the student and school.

Everyone involved in diversionary services, including the Ozark School District, the juvenile office and the juvenile court judge are the student’s biggest supporters. Staff work with the families to strengthen bonds, improve the student’s mental and physical well-being and motivate the students to be successful in school and in life.

In calendar year 2021, there were 37 total participants in the program. 18 students graduated from the program successfully, five students were unsuccessful in the program and five students were eventually referred to the juvenile office. The remaining students continue to participate in the program voluntarily.
